

Week 5 Homework

Stefani Reinhardt

1. My Kahoot Quiz Score:

2. Inspiration

A lot of different things inspire me depending on the media. For example, in the past my pets have been an inspiration when it comes to painting, photography and sculpture. But lately my inspirations have been coming primarily from people and the world. The issue of Climate Change has become more and more significant as well as social justice and political representation. Art provides me an outlet to express my frustration or shed light on an issue I feel is not being taken seriously enough. Human psychology has also been a big inspiration to me when I journal or write.
